3) This RESOLUTION and ORDER shall be published once in the Fayetteville Observer, a newspaper published in the City of Fayetteville, ten (10) days before the time fixed for said meeting.

Adopted this 14th day of November, 1960, by the City Council of the City of Fayetteville, North Carolina.

George B. Herndon
Mayor

Louise N. Talbot
City Clerk

On motion of Councilman Plummer, seconded by Councilman Rose the following amendment to the Plumbing Code was adopted:

THE CITY COUNCIL OF THE CITY OF FAYETTEVILLE, N.C. ORDAINS:

Section 1. Sections 17-18 and 17-21 of that ordinance of the City of Fayetteville, N.C., denominated to "Plumbing Code" are hereby repealed and in lieu thereof are enacted as follows:

Section 17-18 PROHIBITED CONNECTIONS WITH SANITARY SEWER SYSTEMS. - It shall be unlawful for anyone to connect open gutters, rain water conductors, cesspools, septic tanks or privy vaults directly or indirectly with the sanitary sewer systems. All floor drains, interceptors and separators, sand traps, etc., shall comply with the provisions of the North Carolina Plumbing Code.

Section 17-21 PROHIBITED CONNECTIONS WITH STORM SEWERS. Closets, urinals, sinks, bath tubs, laundry tubs, lavatories, commercial laundry waste, or all other fixtures supplying or discharging sewage, shall not be connected with any storm drain, but must be connected with the sanitary sewer system. All floor drains, interceptors and separators, sand traps, etc., shall comply with the provisions of the North Carolina Plumbing Code.

Section 2. This ordinance shall be in full force and effect from and after its adoption. Adopted this 15th day of November, 1960.

George B. Herndon
Mayor

Louise N. Talbot
City Clerk

On request of the Chamber of Commerce and on motion of Councilman Plummer seconded by Councilman Massei, the City Manager was requested to prepare ten copies of a letter presented by the Chamber of Commerce supporting highway improvements. These letters are to be signed by the Mayor and City Clerk and forwarded to the proper authorities.

The City Manager read an ordinance adopted by the City Council some years ago for the control of public dances which requires the permission of the City Council for such dances. Mr. Ray stated that Chief Worrell has some reservations about some of the dances and it is believed that some closer supervision should be given. The City Attorney suggested amending the present ordinance by deleting the last phrase which requires prior permission by the Council. The City Manager read a letter from Mr. Mitchell requesting permission to hold two colored dances in the Big Farmer's Warehouse. Councilman Plummer suggested that Chief Worrell handle the matter as he has in the past.

On motion of Councilman Plummer, seconded by Councilman Rose, the following amendment to the Zoning Ordinance was unanimously adopted:

Rezone from Heavy Commercial to Residence 6:

Beginning at the southwestern intersection of Sessoms Drive and Dunn Road in Lock's Creek Subdivision and running thence with the western margin of Sessoms Drive in a southeasterly direction to the point where the margin of said drive intersects the Heavy Commercial District line; and running thence with the said Heavy Commercial District line in a northeasterly direction to the southeastern corner of said Heavy Commercial District; and running thence in a northwestern direction with the said Heavy Commercial District line 300 feet to the eastern margin of Dunn Road, said point being the northwestern corner of the present Heavy Commercial District; and running thence with the western margin of Dunn Road in a southwesterly direction to the point of beginning.

There being no further business, on motion of Councilman Plummer, seconded by Councilman Rose the meeting was adjourned.

Louise N. Talbot
City Clerk

Regular Meeting
City Council - Fayetteville, N. C.
November 28, 1960

The regular meeting of the City Council was held in the City Hall on November 28, 1960 at 8:00 P. M.

Present: Mayor George B. Herndon — G. W. Ray, City Manager

Councilmen: Eugene Plummer, Sol Rose, Ernest L. Massei — Nelson Taylor, Acting City Attorney

Futher consideration was given to the request of Mr. George Vick for the paving of Olive Road under private contract. The Engineers reported that it would not be necessary to remove any trees to pave the street 27 feet wide for the distance that is requested; but if the street is paved all the way to the end, it will be necessary to remove trees on the south end of the street. It is the opinion of the City Engineer, the drainage for this section of the street would not be a problem. After careful consideration Councilman Rose moved that petition for paving a portion of Olive Road be accepted, if every effort to obtain petition for the entire street has been made and such petition cannot be obtained. Motion seconded by Councilman Massei and unanimously carried.

On recommendation of the City Manager and the Chief of the Fire Department and on motion by Councilman Plummer, seconded by Councilman Massei, Arch Owen Cox and Bobby Eugene Duke were appointed to fill two vacanies in the Fire Department, subject to their passing the physical examination and subject to Mr. Cox's moving inside the City Limits.

The City Manager read a letter from Mr. J. W. Spruill, District Engineer for the State Highway Commission, stating that several years ago the Highway Commission requested that intersection of Wilmington Road and Eastern Blvd. be closed. Mr. Spruill stated that since that date traffic has been continuly building up and the intersection has become more and more hazardous. It is his futher belief that heavier traffic on Eastern Blvd. can be expected during the coming tourist season due to the opening of I-95 through Cumberland County, north of Fayetteville and he therefore requests that the City Council again give consideration to the closing of this intersection. Mr. Spruill futher requested that parking be prohibited from Grove Street to Person Street and that right turn be allowed on red for the southbound lane of Eastern Blvd. into Russell Street. It is Mr. Spruill's opinion that these changes would contribute greatly to the traffic movement in this area. Councilman Plummer expressed concern over the route the fire truck would have to take to serve the people living on the east side of Eastern Blvd. It was brought out that the trucks would have to travel over the overpass and come back in this particular area. After some discussion, Councilman Massei moved that the matter be referred to the Chief of Police, Chief of the Fire Department, and the Planning Director for their recommendations on closing the Wilmington Road intersection. Unanimously carried.

The Applications of David Frank Lewis and Preston Williams for taxi drivers' permits were presented with no recommendation of approval. Because of their past court records, noraction was taken on either permit.

The City Manager read a letter from Major Ronald Smith, Executive Director of the American Red Cross, asking the Council to grant him one parking space on a monthly basis in the new parking lot at the corner of Burgess Street and Maiden Lane. The parking for this area was discussed by members of the Council and Councilman Massei moved that the property recently acquired by the City behind Central School be utilized as a parking lot on a monthly rental basis, at a fee of $4.00 per month. Motion was seconded by Councilman Plummer and unanimously carried. It was the direction of the Council that one parking space be reserved in this property behind Central School for the Red Cross and that no fee be charged for the space.

R. B. Washington of Atlas Sign Co. showed members of the Council a sign he has made that is a portrait of Terry Sanford on a map of the State of North Carolina. This man wishes to present this sign to the City of Fayetteville, however, it was a thought by members of the Council that Mr. Sanford should be asked before the sign is accepted and erected someplace.

The City Manager read a letter from Mrs. Elizabeth Ellis, City Insurance Agency, proposing a new insurance plan under public and institutional property plan coverage. Mrs. Ellis pointed out that in some instances insurance of city property under this plan would save up to 25 % and it was proposed that an insurance engineer make a study of all the insurance policies of the City for his recommendation. Councilman Plummer moved that the engineer be invited to make a study of the City's insurance policies now in effect and make recommendation to the Council. Motion seconded by Councilman Massei, unanimously carried.

A letter was presented from Mr. Charles Clark, Executive Vice-President of the Chamber of Commerce, requesting the endorsement of the City Council on an addition to the 15-year highway plan proposed by the Highway Commission and approval to an extension of North Carolina Highway No. 24, which currently stops at Fayetteville at NC 210 or NC 87. The matter was discussed by members of the Council. Councilman Massei moved that the City Council of the City of Fayetteville endorse these two programs suggested by Mr. Clark. Motion seconded by Councilman Plummer and unanimously carried.
